SUMMARY

Front-End Web Developer who recently completed 536+ hours of intensive training in modern web technologies. Focusing on Front End languages, as well as Data-Analytics. Passionate about coding and web development. Currently improving my knowledge of Front End languages to better integrate my creative skills into my technical skills.

KEY TECHNICAL SKILLS

HTML, JAVASCRIPT, JQUERY, CSS, BOOTSTRAP FRAMEWORK, PHP, LARAVEL FRAMEWORK, MYSQL, GITHUB, API INTEGRATION, AJAX, JSON, DEBUGGING, UI/UX DEVELOPMENT

PROJECTS

MYWALL.SITE

My personal portfolio displaying some of my recent and in-progress projects, my personal GitHub stream utilizing GitHub's API, as well as being a canvas for me to implement new front-end languages as I learn them.

QUESTHUB.TECH

QuestHub is a Meetup API based web application that concentrates on bringing developers and events together. QuestHub utilizes a CRON Job to retrieve new events daily from Meetup's API, allowing fresh events to continually populate the site. The application has a simple and smooth design to promoting mobile responsiveness.

WORK EXPERIENCE

CONCESSIONS SUPERVISOR, TEXAS TECH LOCKER ROOM, SEPTEMBER 2014 - JULY 2015

TEAM LEADER, FREEBIRDS WORLD BURRITO, OCTOBER 2012 - DECEMBER 2013

EDUCATION

TEXAS TECH

Completed core curriculum, as well as additional course work in Biology and Accounting.

CODEUP

Attended Codeup's Full-Stack Program, to take a deep dive into web development and the careers there-in, introducing me to everything from basic web development with HTML, JavaScript, and CSS, to more advanced back-end logic using PHP and the Laravel Framework.
